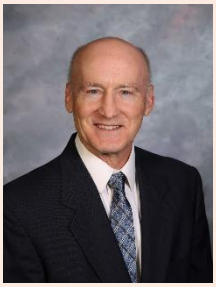
The Washington CURRENT

washmo.gov Summer 2022

A NOTE FROM OUR MAYOR...



Dear Citizens,

It has been over two months since I was sworn into office alongside three new councilmen. The most common question all of us are asked is "How's it going?" I always reply, "It's going very well, thank you!"

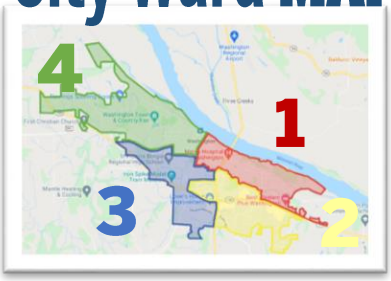
Covid Relief, America Rescue Plan and the recently passed Transportation Bill are giving Washington an opportunity never seen before. It is our responsibility to ensure we spend the funds wisely. The main focus will be infrastructure; roads, sanitary sewer, and water.

The City has a very talented, smart and hard-working group of employees who are well-led by an outstanding leadership team. Rest assured, we are all in good hands as we wisely manage the coming growth, while maintaining the values that make Washington unique.

Thank you,
Doug

City Ward MAP

FUN FACT



Washington has four wards. The boundaries are reviewed following every Census. You can access the detailed ward map on our website.

Residents serviced by Dumpsters

BULKY ITEM PICKUP for residents serviced by dumpsters will take place

October 17th – 21st

on your regularly scheduled trash day during the above week.

Bulky Items include items such as chairs, mattresses, bookshelves, etc. EXCLUDED ITEMS: Construction/ demolition waste, tires and Hazardous waste.

Please Note: For residents with curbside pickup—there will be no change to your monthly bulky trash pickup (which occurs on your final pickup day of the month).

From the Archives...

DARREN LAMB • City Administrator
dlamb@washmo.gov

Summer is in full swing and there are several City projects in various stages of construction. The Waterworks building on the riverfront should be substantially complete with renovation work. We are excited for our new tenant – WashMo On The Go. Some tenant finish work still needs to be completed but the business should be open by early fall.

Additionally the Busch Creek Greenway work is in progress, which will be an on/off street trail network from South Point to Jefferson Street. The greenway will consist of a 10 foot wide concrete trail for off road hiking and biking and "sharrows" signage for the portions on the street. Work on the trail is expected to be complete by Fall 2022. Design work has been completed on the Freight Depot on Front Street. The City is working with a recreational axe throwing business. Bids should be out for construction at the time of this printing. The City hopes to have construction completed by this fall.

Finally, the City will be partnering with the Washington Special Road District to reconstruct a portion of S. Point Road from the City limits south to the northern access to Stone Crest subdivision. This will include extension of a waterline to the location of the proposed new water tower at North Goodes Mill Rd and South Point Road. The water tower construction will hopefully start late 2022 or early 2023.

These are just some of the projects the City is working to complete in the remainder of 2022.
