

Residents of The City of Washington

Effective October 1, 2020

Water Rate Change

On August 17th the City Council voted to approve a water rate increase.

Why the change?

The City of Washington has maintained the same rate since 2011.

Current and future budget projections indicate a rate increase is necessary.

This increase will allow for needed improvements such as...

waterline replacement, water tower maintenance, fire hydrant maintenance among other improvements.

What is the new rate?

- A Service Charge to all active meters-\$7.00 per month

Usage Rate-

- First 16,667 gallons \$2.25 per 1000 gallon
- Usage over 16,667 gallons \$1.55 per 1000 gallon

How will this affect my bill?
