

WRAPPING PAPER

Holiday Reminder...

Wrapping Paper should not be recycled.

Most wrapping papers contain non-recyclable additives such as glitter, plastic and foil which renders it non-recyclable. If included in the recycling bin with other paper products, it can make an entire load unrecyclable.

How can I help?

Please do NOT place any wrapping paper, bows, or ribbons in your recycling bin.

Please Remember...

- NO Wrapping Paper**
- NO Ribbons**
- NO Tissue Paper**
- NO Bubble Wrap**
