Subject: Petition for city road maintenance and snow removal

**Many years ago, the City of Washington approved a site plan giving a builder the right to build on non-standard streets within the confines of the city limits.** These streets are Turtle Creek Drive, Anna Leah Lane and Wenona Court. By giving this approval, the initial and subsequent builders were able to build 49 units with no subsequent responsibility regarding road maintenance and snow removal. This has now resulted in a financial burden for the current homeowners not currently experienced by those on other city-maintained streets. We feel that this is something we should not be burdened with given that **we pay taxes, we are within the city limits and we pay for access to water, sewer and waste management services.** Because the HOA maintains these roads, access to these roads is not a problem for waste management, mail delivery, current private snow removal and local delivery services.

**I think I speak for all the undersigned on this petition when I point out that we feel that the City of Washington is a very well-managed metropolitan area.** The management seems to be very proactive regarding preserving the integrity of the city. Having said that, the HOA also feels that the failure of the city to support this mostly senior citizen community will eventually result in the failure of the HOA to remain effective due to higher HOA fees. Because there is no city support for the overall maintenance and snow removal of these streets, the following scenarios will occur sometime in the future if the HOA is forced to cancel several infrastructure support activities due to high HOA fees:

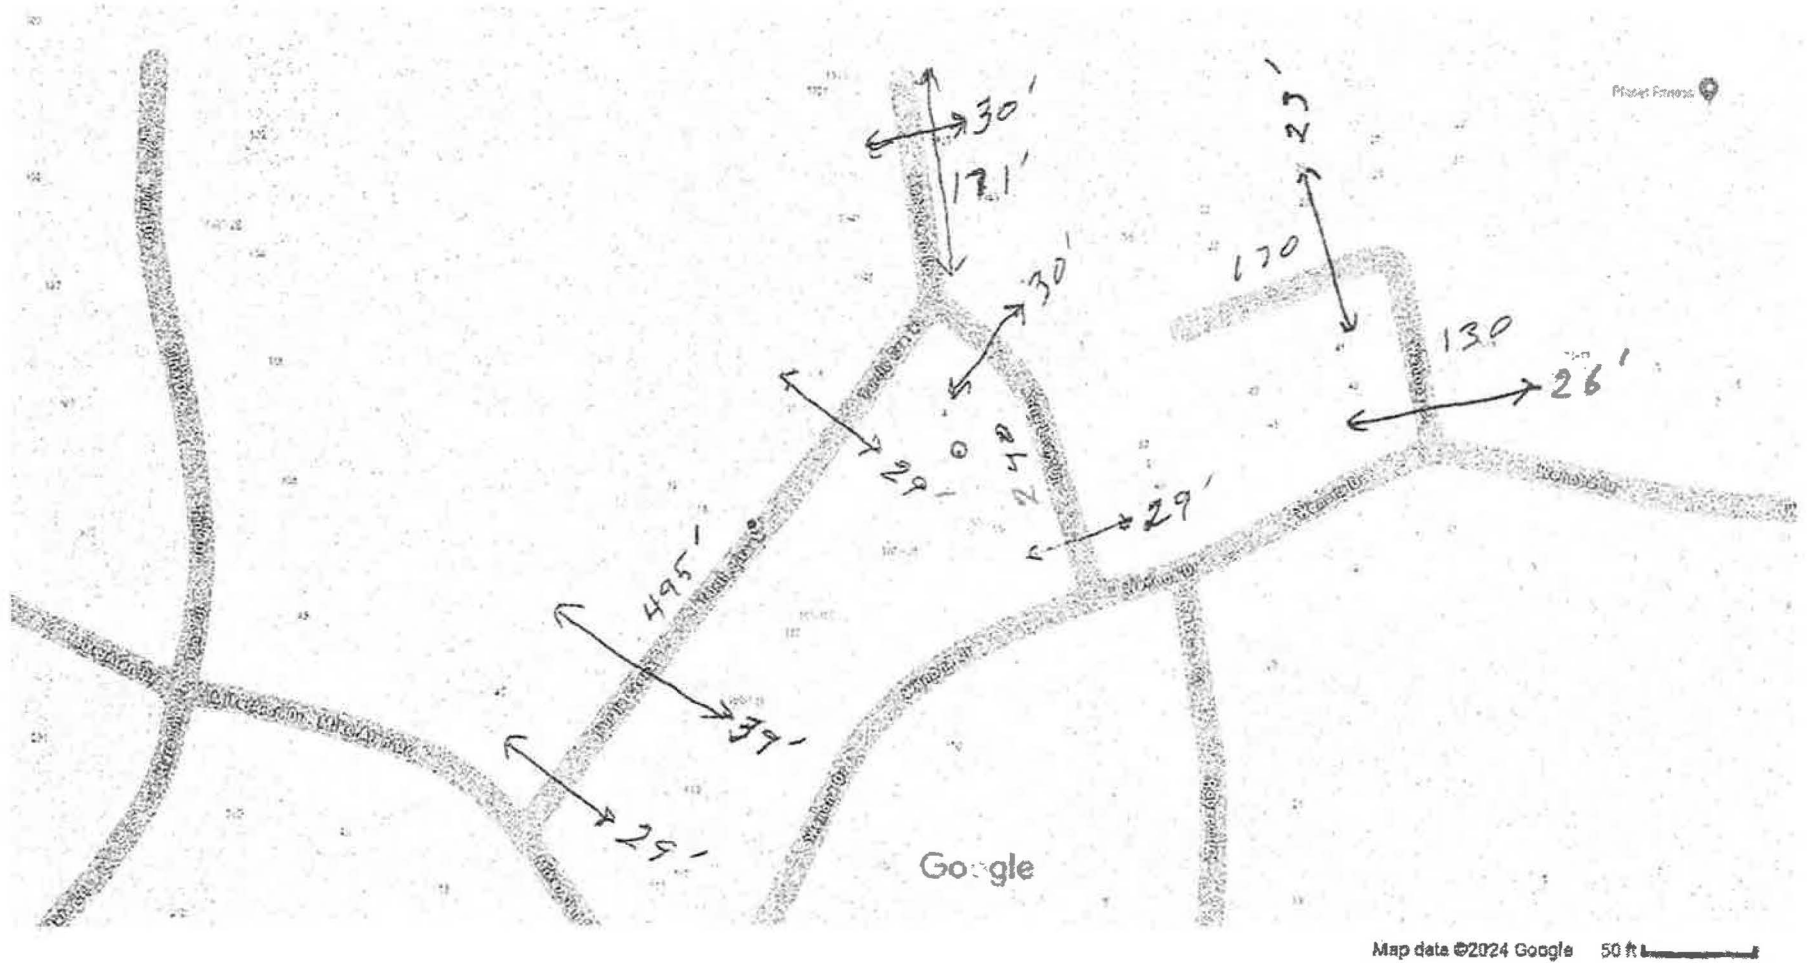

1. Overall maintenance will be less than the current levels resulting in a less than desirable housing environment.
2. Streets will no longer be maintained. Snow removal will cease to occur resulting in senior citizens being unable to leave their homes during excessive snow accumulation. This may also result in emergency vehicles being unable to access homes due to these issues.
3. An overall decline in the maintenance and safety of these households.

**As mentioned before, we feel that the city is very proactive in its management approach, and this is an opportunity for the city to support that opinion.**

We, the undersigned citizens of the Turtle Creek Homeowners Association, do hereby request that the City of Washington Missouri City Council discuss and agree to the acceptance of our residential community as a part of the city's overall support structure to prevent possible future issues and to support our primarily senior community.

**Specifically, we are asking that the city provide the following services:**

1. **Snow removal**
2. **Road repair and maintenance consistent with current city-maintained streets.**

TOTAL = 1,206 FT

We, the undersigned citizens of the Turtle Creek Homeowners Association do hereby request that the City of Washington Missouri accept our residential area into their care.

1. We all pay Washington city taxes
2. We are totally within the Washington city limits
3. We pay for Washington city water, sanitary sewer and waste pickup.

Note: Contacted County to report that the Library Real Property monthly report has not been updated since 2023. Also, the January 2024 report was missing the 2023 delinquent taxes. They were unaware of this issue and are looking into fixing it. However, the below information is all they could provide for the City Council yearly update of delinquent taxes. I have included the monthly report that was correct as of December 2023, plus the below correct totals of the delinquent taxes as of 2/1/2024.

RE: Storm Water Management Fund – 800 Jefferson Street

Dear Mayor and City Council Members:

The Engineering Department has received a request from ELS for a cash payment in lieu of construction for on-site storm water detention basin at 800 Jefferson Street. According to section 420.035 of the City of Washington's Stormwater Management Standards, the City Council will render all decisions concerning participation in the Stormwater Management Fund.

The estimated amount for construction to detain the differential runoff is \$12,079.53. The in-lieu payment will help fund the identified stormwater bio-retention basin that is budgeted and scheduled to be built this year in the adjacent City property. This basin would be able to handle the volume from this development and the surrounding drainage area as well as provide better water quality than traditional detention basins.

The approval of a payment of \$12,079.53, in lieu of construction is recommended.

Respectfully submitted,

Charles Stankovic, P.E.  
City Engineer

City Council,

Last year AT&T brought back the C.O.W. Cell on Wheels equipment to the fairgrounds. This improves mobile communication during the fair. It has once again been requested for this equipment to be brought back to the fairgrounds. It is important to point out that Washington Emergency Services use AT&T FirstNet. Communications during the event is critical.

Once again, we are asking the Council to approve the attached Temporary Site License with AT&T in order to get the equipment here before August.

Respectfully submitted,

Mayor Doug Hagedorn  
City Council Members

RE: Police Academy Sponsorship

Honorable Mayor and City Council,

As I mentioned at the last council workshop, the police department is currently having difficulty recruiting and hiring qualified personnel. At that time, I mentioned an idea to seek out individuals that are interested in becoming a police officer but do not currently meet the training and certification requirements. This would be accomplished by hiring an individual(s) and sponsoring them as they complete the police academy.

Since that meeting, city staff has met and worked out the details of the sponsorship agreement. To apply for the Police Recruit position, interested individuals will complete a process similar to hiring a full-time police officer. However, if selected the individual would be hired as a non-commissioned full-time City employee (Recruit). The Recruit would then receive compensation at a rate much lower than a commissioned police officer (grade 10 minimum). The Recruit would also be required to sign an Academy Sponsorship Agreement. Attached you will find the sponsorship agreement that would be required for an individual to participate in the program. This agreement would require the recruit to successfully complete a police academy and meet Missouri POST Commission standards. Additionally, the Recruit must agree to continue employment with the Washington Police Department for a term of four years. In return, the city would cover tuition and associated costs of the individual attending the police academy. Should the recruit breach the agreement the recruit will be required to repay those costs at a prorated amount.

We already have interest from individuals wanting to participate in the program. I am recommending your approval to amend the city code and adopt the program. Thank you for your continued support with our recruitment efforts. Should you have any questions prior to the meeting feel free to reach out to me.

Sincerely,

*Chief James Armstrong*

RE: Police Academy Sponsorship

Honorable Mayor and City Council,

As I mentioned at the last council workshop, the police department is currently having difficulty recruiting and hiring qualified personnel. At that time, I mentioned an idea to seek out individuals that are interested in becoming a police officer but do not currently meet the training and certification requirements. This would be accomplished by hiring an individual(s) and sponsoring them as they complete the police academy.

Since that meeting, city staff has met and worked out the details of the sponsorship agreement. To apply for the Police Recruit position, interested individuals will complete a process similar to hiring a full-time police officer. However, if selected the individual would be hired as a non-commissioned full-time City employee (Recruit). The Recruit would then receive compensation at a rate much lower than a commissioned police officer (grade 10 minimum). The Recruit would also be required to sign an Academy Sponsorship Agreement. Attached you will find the sponsorship agreement that would be required for an individual to participate in the program. This agreement would require the recruit to successfully complete a police academy and meet Missouri POST Commission standards. Additionally, the Recruit must agree to continue employment with the Washington Police Department for a term of four years. In return, the city would cover tuition and associated costs of the individual attending the police academy. Should the recruit breach the agreement the recruit will be required to repay those costs at a prorated amount.

We already have interest from individuals wanting to participate in the program. I am recommending your approval to amend the city code and adopt the program. Thank you for your continued support with our recruitment efforts. Should you have any questions prior to the meeting feel free to reach out to me.

Sincerely,

*Chief James Armstrong*

The park related buildings that will be investigated as part of the master plan are the following:

- City Auditorium
- Park Maintenance Storage Facility
- Old Pool House
- Cabin at Miller Post Nature Reserve
- Farmstead Building at Kohmueller Farmstead

### **Phase 1 – Facility Inventory & Assessment**

#### **A. Kick-Off Meeting**

The planning team will conduct a kick-off meeting with City representatives. This meeting will achieve three primary tasks: (1) Establishment of a “planning committee” to work with planning team throughout the planning process. The planning committee could be comprised of Parks & Recreation Commission members, City staff and other stakeholders. The ideal size of the planning committee is ten or fewer individuals; (2) Confirm/Refine the time frame for each of the project phases and set dates for specific events; and (3) Develop an approach for equitable public involvement during the project.

#### **B. Inventory of Facilities**

During the inventory phase, the planning team will develop an understanding of the existing facilities within and adjacent to the city. Data will be gathered from site visits and available records. The analysis of the amount and type of recreation resources will be based on field observations, staff interviews and a review of previous studies. The planning team will analyze the current infrastructure of the parks and facilities including a review of City Auditorium and the Park Maintenance Storage Facility.

The planning team will coordinate with the City parks and maintenance staff to complete an assessment form for each of the parks that will document the existing condition and inventory of each park. The planning team will also complete assessment forms for each of the park facilities to compare results and identify differences in assessments.

C. Demographic Profile

The latest available census data for the city will be used to get a better understanding of the City's population and demographic trends for the future that may impact the needs for the park system.

D. Background Data & Input

Existing studies, staff interviews and public perception input will be used to further understand the park system and needs of the park users.

E. The planning team will develop and administer a park and recreation needs assessment internet-based survey. The results will be incorporated into the master planning process.

F. Meetings

- Staff interviews will be conducted as part of the process to obtain information on park issues.
- A public input session will be conducted in person or via ZOOM by the planning team to gather input regarding existing conditions of Washington's Park facilities from residents and park users.
- A stakeholder workshop will be conducted with staff and users of the City Auditorium building. The results of this workshop will be used to develop a space plan for the building.
- Staff interviews (4 total, 1 hour each) will be conducted as part of the process to obtain information on park issues. The results of these interviews will also contribute to the space plans developed for both buildings.
- During the Facility Inventory and Assessment phase, consulting team will conduct a meeting with the planning committee to review the data collected and document any input that will assist with the planning process.

G. Deliverables

- Meeting Minutes
- Park Inventory & Assessment Forms
- Survey Results

**Phase II – Community Needs Assessment**

A. Demand & Projected Needs

The demand for parkland and park facilities will be based on public input, staff interviews, planning committee input and recreation standards tailored to the city. Factors such as recreation trends, Washington demographics, future growth, public input, planning committee input, and staff interviews will be analyzed to confirm the projected demand.

The projected needs for park land and facilities will be calculated through a comparison of existing and future demand minus existing inventories. The deficit or surplus of park land or facilities will be documented and will provide the basis of the plan's recommendations. The planning team will identify future best uses for park areas; and identify deficiencies and how they can be corrected, changed, or improved.

Analyze the City of Washington's recreation programs and services and provide a written summary.

**B. Meetings**

- During this phase, the planning team will conduct a meeting with the planning committee to review the analysis that was completed and document any input that will assist with the planning process.

**C. Deliverables**

- Meeting minutes
- At the conclusion of Phase II, a summary of park land requirements, facility needs, and recommendations for action will be developed for review by the planning committee.

**Phase III – Preliminary Master Plan**

**A. Draft Master Plan**

The planning team will prepare draft options for park improvements for park facilities, open space, and trail linkages. For the City Auditorium and the Maintenance Storage Building, adaptive reuse floor plans will be developed and used in the development of cost models. For the Old Pool House, recommendations on reuse as park staff offices will be provided as well as comments on the previously completed cost estimates. For the Cabin at Miller Post Nature Reserve, and the Farmstead Building at Kohmueller Farm, ideas for future uses will be provided. A list of initial recommendations and budget costs for each park will be developed. An aerial photo with the park boundary and a list of recreation improvements will be developed for each park to illustrate the initial recommendations that were developed. EXCEL spreadsheets will be developed with a draft list of projects describing the improvement, cost range, timeframe, and potential funding source.

- B. Complete a comprehensive budget and staffing analysis, including future staffing suggestions based on the recommendations of the master plan.**

**C. Implementation/Strategy/Action Plan**

This task will include an analysis of the cost of the recommended actions suggested in the master plan. Funding strategies will be identified. Funding source information will be matched with specific projects to suggest the best and most appropriate funding sources. Strategies for maximizing revenues from funding sources will be

recommended for use in the action plan. With input from the planning committee, City staff and the public, implementation priorities will be identified.

D. Meetings

- During the Preliminary Master Plan phase, the planning team will conduct a meeting with the planning committee to review the initial action plan developed and document any input that will assist with the planning process. The meeting will focus on gaining input on preferences and priorities regarding the draft improvements.
- A public input session will be conducted in person or via Zoom by the planning team to gather feedback from the public on the initial concepts for park improvements. In lieu of a public meeting, an Internet based survey can be completed to gather public input on the initial park concepts.

**Phase IV - Master Plan**

A. Executive Summary

Development recommendations and community preferences will be included in the master plan as well as funding strategies. Concept master plan diagrams will be provided for Riverview Park, Lakeview Park and Hillerman Park (3 total). A color site diagram of each park listing recommendations developed through the master planning process will be included in the report. (Total 12 color diagrams).

C. Meetings

- During the Master Plan Phase, the planning team will conduct a meeting with the planning committee to review a final-draft master plan report and incorporate any input that will assist with fine tuning the plan.
- Master Plan Open House - The final open house will be an in-person meeting present the results of the master plan. In lieu of an open house, the master plan can be presented at a city council meeting which is open to the public.

RE: Recommendation – Professional Services – Park & Recreation Master Plan

Honorable Mayor and City Council,

It has been many years since the Parks & Recreation Department had a professional parks specific master plan completed. As you are aware the Department manages 16 parks and 580 acres of parkland and green space. A park specific master plan will inventory and assess the Department's current facilities, operations and staffing, provide the City with a guide for future parkland and park facility development (with cost estimates), analyze recreation programs/events and conduct a community needs assessment. Information from the master plan can be used to evaluate and rank park projects for the upcoming Capital Improvement Sales Tax (CIST). The CIST Committee will begin meeting in 2025. In addition, an updated park master plan will allow the Department to apply for future park related federal grants.

In January the Department issued a RFQ for professional services for a Parks & Recreation Master plan and received eight proposals. A Selection Committee was formed and consisted of Mayor Hagedorn, Councilman Behr, Darren Lamb, Sal Maniaci, Sparky Stuckenschneider, Joe Leesman (Fair Board President) and me. After reviewing and scoring the eight proposals the Committee wanted to move forward by interviewing the top scorer, Planning Design Studio (PDS) on March 8. After the interview, the Committee recommended having staff negotiate a professional services contract with PDS.

The master plan would be funded as follows: \$50,000 from the Additional 3% Marijuana Tax and \$20,000 from the American Rescue Plan Act (ARPA).

**Accordingly, the Master Plan Selection Committee and staff recommend that Council consider Planning Design Studio's professional services proposal of \$70,000 for the services of a park specific master plan.**

As always, if you have any questions, concerns or would like additional information, please feel free to contact me prior to the Council Meeting.

Respectfully,

*Wayne Dunker*

Re: Texwrap – Issuance of Bonds

In your packet for approval is an ordinance to issue Chapter 100 Bonds to Texwrap in conjunction with the Memorandum of Understanding for performance measurements. In summary, Texwrap will commit to approximately \$5 million in capital investment, complete their 39,000 sq. ft. expansion, and create 35 jobs with an average salary of \$64,000/year.

In the incentive package, the company will receive a 50% abatement on the increase only in real estate taxes. The incentive will last 10 years with the company paying approximately \$414,000 in PILOT Payments.

The 353 Redevelopment Corporation reviewed the proposal and unanimously recommended approval of the agreement. These terms are identical to the terms of the Resolution of Intent that Council passed for the project in 2023.

Mayor & City Council,

On your agenda for the April 1, 2024 agenda is an ordinance approving a code amendment defining a Cigar Bar and exempting it from the smoking ban. It is defined as:

**Section 260.010. Definitions. [R.O. 1992 § 260.010; Ord. No. 13-11119 § 1, 3-18-2013 ]**

The following words and phrases, whenever used in this Chapter, shall be construed as defined in this Section:

**BAR** — An establishment that is devoted to the serving of alcoholic beverages for consumption by guests on the premises and in which the serving of food is only incidental to the consumption of those beverages, including, but not limited to, taverns, nightclubs, cocktail lounges, and cabarets.

**BUSINESS** — A sole proprietorship, partnership, joint venture, corporation, or other business entity, including retail establishments where goods or services are sold; professional corporations and other entities where legal, medical, dental, engineering, architectural, or other professional services are delivered.

**CIGAR BAR** — A business with a permit to sell alcoholic beverages that generates twenty-five percent (25%) or more of its quarterly gross revenue from the sale of cigars and/or rental of humidor space, has a humidor and air ventilation system on the premises and does not allow minors to enter the smoking area.

**E-CIGARETTE** — Any electronic oral device, such as one composed of a heating element, battery, and/or electronic circuit, which provides a vapor of nicotine or any other substances, and the use or inhalation of which simulates smoking. The term shall include any such device, whether manufactured, distributed, marketed, or sold as an e-cigarette, e-cigar, e-pipe, or under any other product name or descriptor.

**EMPLOYEE** — A person who is employed by an employer in consideration for direct or indirect monetary wages or profit.

**EMPLOYER** — A person, business, partnership, association, corporation, including a municipal corporation, trust, or non-profit entity that employs the services of one (1) or more individual persons.

**ENCLOSED AREA** — All space between a floor and a ceiling that is bounded on at least two (2) sides by walls, doorways, or windows, whether open or closed. A wall includes any retractable divider, garage door, or other physical barrier, whether temporary or permanent and whether or not containing openings of any kind. An “enclosed area” shall not include a smoking shelter as defined herein. [ **Ord. No. 13-11132 § 1, 5-6-2013** ]

**HEALTH CARE FACILITY** — An office or institution providing care or treatment of diseases, whether physical, mental, or emotional, or other medical, physiological, or psychological conditions, including, but not limited to, hospitals, rehabilitation hospitals or other clinics, including weight control clinics, nursing homes, long-term care facilities, homes for the aging or chronically ill, laboratories, and offices of surgeons, chiropractors, physical therapists, physicians, psychiatrists, dentists, and all specialists within these professions. This definition shall include all waiting rooms, hallways, private rooms, semiprivate rooms, and wards within health care facilities.

**HOOKAH LOUNGE** — Any facility or location whose business operation, whether as its primary use or as an ancillary use, is devoted to the on-premises smoking of tobacco or other

substances through one (1) or more pipes (commonly known as a "hookah," "waterpipe," "shisha" or "narghile") designed with a tube passing through an urn of water that cools the smoke as it is drawn through it, including, but not limited to, establishments known variously as hookah bars, hookah lounges or hookah cafes.

**MEMBERSHIP CLUB** — An organization, whether incorporated or not, which is the owner, lessee, or occupant of a building or portion thereof used exclusively for club purposes at all times, which is operated solely for a recreational, fraternal, social, patriotic, political, benevolent, or athletic purpose, but not for pecuniary gain, and which only sells alcoholic beverages incidental to its operation. The affairs and management of the organization are conducted by a board of directors, executive committee, or similar body chosen by the members at an annual meeting. The organization has established bylaws and/or a constitution to govern its activities. The organization has been granted an exemption from the payment of Federal income tax as a club under 26 U.S.C. § 501

**PIPE FACTORY** — A business that is primarily devoted to the manufacturing or production of pipes used for the smoking of tobacco or other plant products and that derives at least ninety percent (90%) of its gross quarterly sales revenue from the sale of such pipes. A restaurant, bar, hookah lounge, or other business primarily devoted to the sale of food, alcoholic beverages, or tobacco products is not a "pipe factory" for the purposes of this Chapter.

**PLACE OF EMPLOYMENT** — An area under the control of a public or private employer, including, but not limited to, work areas, private offices, employee lounges, restrooms, conference rooms, meeting rooms, classrooms, employee cafeterias, hallways, construction sites, temporary offices, and vehicles. **PUBLIC PLACE** — An area to which the public is invited or in which the public is permitted, including, but not limited to, banks, bars, educational facilities, gaming facilities, health care facilities, hotels and motels, laundromats, public transportation vehicles and facilities, reception areas, restaurants, retail food production and marketing establishments, retail service establishments, retail stores, shopping malls, sports arenas, theaters, and waiting rooms. A private residence is not a "public place" unless it is used as a child care, adult day care, or health care facility.

**RESTAURANT** — An eating establishment, including, but not limited to, coffee shops, cafeterias, sandwich stands, and private and public school cafeterias, which gives or offers for sale food to the public, guests, or employees, as well as kitchens and catering facilities in which food is prepared on the premises for serving elsewhere. The term "restaurant" shall include a bar area within the restaurant.

**SHOPPING MALL** — An enclosed public walkway or hall area that serves to connect retail or professional establishments.

**SMOKING** — Inhaling, exhaling, burning, or carrying any lighted or heated cigar, cigarette, or pipe, or any other lighted or heated tobacco or plant product intended for inhalation, in any

manner or in any form. "Smoking" also includes the use of an e-cigarette which creates a vapor, in any manner or in any form, or the use of any oral smoking device for the purpose of circumventing the prohibition of smoking in this Chapter.

**SMOKING SHELTER** — An accessory structure that meets all applicable provisions of the Zoning and Building Codes, with a maximum size of two hundred (200) square feet, that is detached from principal buildings, that is located more than ten (10) feet from the main entrance of public places and places of employment, in which there is no service, possession or consumption of food or alcoholic beverages, and that is no more than eighty-five percent (85%) enclosed at any time. The percentage of enclosure shall be calculated based on the elevation area below the roof of all elevations. For calculation purposes, screens are not considered to be enclosures, but louvers, windows and other solid materials qualify as enclosures. No other wall, fence, roof overhang or other obstruction of any kind may be located within five (5) feet of the openings if it has the effect of blocking the free flow of air through the required opening. [ **Ord. No. 13-11132 § 1, 5-62013**

**SPORTS ARENA** — A place where people assemble to engage in physical exercise, participate in athletic competition, or witness sports or other events, including sports pavilions, stadiums, gymnasiums, health spas, boxing arenas, swimming pools, roller and ice rinks, and bowling alleys.

**Section 260.080. Where Smoking Not Regulated. [R.O. 1992 § 260.080; Ord. No. 13-11119 § 8, 3-18-2013 ; Ord. No. 14-11226 § 2, 1-6-2014 ; Ord. No. 15-11350 § 1, 1-5-2015 ]**

A. Notwithstanding any other provision of this Chapter to the contrary, the following areas shall be exempt from the provisions of Sections 260.030 and 260.040:

1. Private residences, unless used as a child-care, adult day-care or health-care facility.
2. Until January 22, 2017, not more than twenty percent (20%) of hotel and motel sleeping rooms rented to guests and designated as smoking rooms. All smoking rooms on the same floor must be contiguous, and smoke from these rooms must not infiltrate into areas where smoking is prohibited under the provisions of this Chapter. The status of rooms as smoking or non-smoking may not be changed, except to add additional nonsmoking rooms. This exemption shall expire on January 22, 2017.
3. A pipe factory that as of January 22, 2013, was operating as a pipe factory, if all of the following requirements are met:
  - a. The smoking involves the smoking of a pipe manufactured or produced on the premises and occurs as part of a customer demonstration in an area of the pipe factory that is used only for this purpose.
  - b. Smoke from the specified area of the pipe factory does not infiltrate into enclosed areas where smoking is otherwise prohibited by this Chapter.
  - c. The pipe factory shares no common walls with other establishments or businesses.
  - d. The pipe factory satisfactorily reports on a quarterly basis to the City the quarterly gross sales revenue generated from the sale of pipes as a percentage of overall quarterly gross revenue. The City shall determine whether any additional documentation is required to authenticate or verify revenue data submitted by the pipe factory.
  - e. Any pipe factory that fails to satisfy any of the requirements identified above, including the gross revenue requirements, in any one (1) quarter shall immediately lose its exemption and shall not be eligible for the exemption in the future.
4. Until January 22, 2017, testing of e-cigarettes in retail stores that sell only e-cigarettes and the liquid that is vaporized when using an e-cigarette, commonly known as "e-liquid," "e-juice," "smoke juice" or "vapor." Serving of alcoholic beverages for consumption by guests on the premises and giving or offering for sale food to the public, guests, or employees shall be prohibited.

**5. Cigar bars, provided that smoke does not infiltrate into areas where smoking is otherwise prohibited.**

B. Subsections (A)(3) and (4) shall not apply to any business that is established for the purpose of avoiding compliance with this Chapter.

# PEAR TREE BUYBACK

The City of Washington's Urban Forestry Council, in partnership with Missouri Invasive Plant Council (MOIP) and the Missouri Department of Conservation (MDC), will host a Callery (Bradford) pear tree "buyback" program to continue to spread awareness about this invasive tree.

***Participants who submit a photo of themselves beside their cut down Callery pear tree will receive one FREE native tree.***

## **REGISTRATION IS OPEN APRIL 1 TO MAY 1, 2024**

One FREE 5-gallon native tree per resident household, valued at \$100, will be provided to each registered household if a completed form is received by May 1, 2024. Participants are invited to pick up their tree on May 15 from 3pm-7pm at Washington City Hall (in courtyard area between City Hall and the Library). Urban Forestry Council members will be on hand to answer planting and watering questions.

### ***CALLERY PEAR TREES***

***(Pyrus calleryana) include 26 cultivars (including Cleveland & Bradford pear) that present significant ecological concerns in Missouri. Native to China, Callery pear and its cultivars, frequently used as decorative trees, are aggressively invasive plants, resulting in loss of habitat for wildlife. Callery pear limbs generally grow vertically, forming a pyramid or egg shape. Callery Pear's ability to cross pollinate is why many roadsides and right of ways are filled with more white blooms every spring. They quickly invade open areas and crowd out native trees and plants.***

# PEAR TREE BUYBACK

## FREQUENTLY ASKED QUESTIONS

**If I remove multiple Callery pear trees, how many free native replacement trees can I receive?**

One. We encourage people to remove all invasive Callery pear trees, however each household is only eligible to receive one free tree.

**Does the free tree have to be planted in the same spot as the Callery pear?**

No. The free tree can be planted in a new location. Washington's Arborist and Urban Forestry Council members have carefully selected species that provide a range of benefits to homeowners including colorful fall leaves and food for wildlife.

**What size tree will I receive?**

Trees are up to 5 feet tall in 5-gallon containers and are valued at \$100.

**I cut down my Callery pear in the past year, can I still get a free native tree?**

Yes! Program rules still apply.
